# SCHOOL PSYCHOLOGY VIRTUAL INFORMATION SESSIONS 2024 Fall

The Queens College School Psychology Program prepares culturally responsive future school psychologists to provide school-based assessment, consultation, counseling, prevention, and intervention services that address the needs of children and families from diverse cultural, racial, ethnic, and linguistic backgrounds. The program trains future school psychologists to use a social justice lens to advocate for the educational rights of students and families who experience the most marginalization in schools and society.

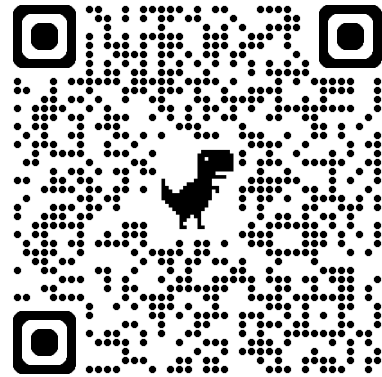

The program offers both a Multicultural Specialization and a Bilingual Specialization; the latter leads to a New York State Bilingual Extension.

## JOIN US FOR A VIRTUAL INFORMATION SESSION

We are hosting six virtual information sessions to provide an overview of the program, including curriculum, practicum and internship experiences, career potential, and application process.

## AVAILABLE DATES & TIMES

<b>Wednesday, Oct. 23</b> 12:15pm-1:15pm	<b>Thursday, Oct. 24</b> 7:15pm-8:15pm
