Wednesday, December 11, 2024

Zoom ID: 865 5163 5654

12:15 PM - 1:30 PM

Passcode: 684900

Science Building C-207

The Fall 2024 Peer Mentors

(Justin Adamson, Candace Anderson, Victor Barrientos, Fabio Dos Santos, Alyse Jofre, Caleb Stewart, Yaacov Strickon, Adriana Zumba-M, Emily Albines)

School of Earth and Environmental Sciences, QC

This semester, eight peer mentors were divided between the lecture sections of Ensci 99, Ensci 100, and Geol 101. To increase student success and engagement in these classes, they hosted weekly office hours, held exam review sessions, lead supplemental demonstrations, delivered concept re-caps, and so much more. Alongside our peer mentors, our department's peer advisor has developed projects and coordinated events to improve the career preparedness of and sense of community amongst our students. Join us at colloquium to hear personal anecdotes from the students and learn more about the impact of our peer program!
